At the end of this training program, please rate your personal perception of your *knowledge base, skills and willingness* on the following topics related to HIV. If an item does not apply to your current professional responsibilities, choose 'N/A (Not applicable)'. For each question, please circle ONE RESPONSE.

Please rate your *knowledge base* about the following topics below. (Responses: 1=Low, 5=High)

	Knowledge Base					N/A
	Low				High	
1. HIV epidemiological trends and natural history of disease.	1	2	3	4	5	N/A
2. Opportunistic infections and co-morbid conditions commonly encountered in patients with HIV disease.	1	2	3	4	5	N/A
3. Antiretroviral therapy principles, including appropriate use of HAART therapy and resistance testing.	1	2	3	4	5	N/A
4. Post-exposure prophylaxis protocols.	1	2	3	4	5	N/A
5. Patient differences in social and cultural perspectives on HIV care.	1	2	3	4	5	N/A

Please rate your *clinical skills* related to the following topics below. (Responses: 1=Low, 5=High)

	Clinical Skills					N/A
	Low				High	
6. Conducting HIV risk assessment including pre- and post-HIV test counseling.	1	2	3	4	5	N/A
7. Counseling HIV+ patients regarding transmission prevention.	1	2	3	4	5	N/A
8. Assessing clinical manifestations of HIV infection, including primary infection.	1	2	3	4	5	N/A
9. Using CD4 cell count and viral load analysis in management of HIV infected patients.	1	2	3	4	5	N/A
10. Preventing opportunistic infections and co-morbid conditions commonly encountered in patients with HIV disease.	1	2	3	4	5	N/A
11. Identifying and treating opportunistic infections and co-morbid conditions commonly encountered in patients with HIV disease.	1	2	3	4	5	N/A
12. Applying antiretroviral therapy principles, including appropriate use of HAART therapy and resistance testing.	1	2	3	4	5	N/A
13. Managing side effects and drug interactions of HAART therapy.	1	2	3	4	5	N/A
14. Administering post-exposure prophylaxis protocols.	1	2	3	4	5	N/A
15. Helping patients to adhere to antiretroviral therapies.	1	2	3	4	5	N/A

Please rate your *willingness to provide care for the types of patients* below. (Responses: 1=Low, 5=High)

	Willingness to Provide Care					N/A
	Low				High	
16. Persons asymptomatic with HIV.	1	2	3	4	5	N/A
17. Symptomatic persons with HIV.	1	2	3	4	5	N/A
18. Persons with AIDS diagnosis.	1	2	3	4	5	N/A
19. Adolescent patients with HIV.	1	2	3	4	5	N/A
20. Women patients with HIV.	1	2	3	4	5	N/A
21. Lesbian/Bisexual/WSW HIV patients.	1	2	3	4	5	N/A
22. Gay/Bisexual/MSM HIV patients.	1	2	3	4	5	N/A
23. Racial/ethnic minority HIV patients.	1	2	3	4	5	N/A
24. Older adult HIV patients.	1	2	3	4	5	N/A
25. Substance using HIV patients.	1	2	3	4	5	N/A
26. HIV patients who are incarcerated individuals/parolees.	1	2	3	4	5	N/A
27. Severely/persistently mentally ill HIV patients.	1	2	3	4	5	N/A
28. Pediatric HIV patients.	1	2	3	4	5	N/A

29. Please describe what type of topic or educational program you would like the AETC to provide to help you further develop your HIV expertise.

30. Please describe suggestions as to how this training program could be improved.

31. Please describe the most beneficial aspects of the AETC training you received.
